

Oasis® Refrigerated Self-Service Produce Cases

The Oasis Refrigerated Self-Service Produce Cases provide a grab & go solution specifically designed for fresh produce.

Improve customers' shopping experience and increase sales while maximizing store efficiency by placing farm fresh produce in easy-to-access locations. Use Oasis berry and produce merchandisers back-to-back to outfit a large section of a supermarket, or leverage a single grab & go display in smaller spaces.

Cutaway or mirrored end panels draw attention to the products inside. Free stack or multi-stack products to take full advantage of the merchandising capacity front to back and side to side. And with the option of self-contained refrigeration, operators have the flexibility to relocate the merchandiser to different areas of the store, making Oasis displays the perfect solution for promoting fresh produce.

39" H Refrigerated Self-Service Produce Case
